DirectMail 2.5

- What is DirectMail?
- What has happened since T3CON 2006?
- DEMO
- Outlook

What is DirectMail 2.5

- DirectMail is a Newsletter Tool for TYPO3
- It has been developed by Kasper
- Thorsten, Jens, Jan-Erik and Stanislaw maintain it currently
- Ivan has rewritten parts of it for his Thesis

What happened?

- T3CONF: DirectMail gives us Pain
- We want to change it
- We want a simpler GUI
- We want more control
- We want to feel more safe while using it

What happened?

- Ivan wrote his Thesis about a Rewrite of DirectMail
- We call it DirectMail 2.5
- Currently (T3DD2007) we need to speak to the current maintainers
- Anyone can get the Extension for Feedback

Demo

- We love Demos.

Outlook

- Make a stable Release
- Test and Feedback required
- Documentation
- Release it

Outlook

- Plans for Version 3.0
- Should be Community driven Development
- Features & Requirement gathering on Wiki

Extras

- We have created a tt_news to DirectMail Plugin for WWF
- We hope to release it soon after T3DD
- T3ONE.COM:
Please join us for a Roundup tonite.

Thanks!
